College of Engineering and Technology

Project Work/Internship – Student Hand Book

Project Batch ID 904

Degree/ program	B.Tech	**Specialisation**	Computer Science and Engineering	
Academic Year	2025-2026 (Even)	**Semester**	8	
Name of student	**Register Number**	**Department**	**Mobile Number**	**Email ID**
Eshita Rai	RA2211003010568	C Tech	9315867453	er8137@srmist.edu.in

Working Title of the Project:	LunaAura: AI- Powered Hormonal and Emotional Health Tracker
Project Site / Location	SRM Institute of Science and Technology
Name and address of the company/organisation (Applicable for projects with industry or industry support)	SRM IST, Kattankulathur, Chengalpattu District-603203

Supervision Team

	Supervisor	**Co-Supervisor**	**External Supervisor (If applicable)**
Name	Mrs. P Sivakamasundari		
Designation	Assistant Professor		
Department	C Tech		
Campus	Kattankulathur		
Telephone	9444616201		

E-mail	sivakamp@srmist.edu.in		
Course Code	**21CSP401L/ 21CSP402L**	**Course Title**	Project

Mission Statement

The mission of **LunaAura** is to develop an AI-driven research framework that analyses emotional and hormonal health patterns using machine learning techniques, enabling early identification of mood fluctuations and personalized mental well-being insights through data-driven analysis.

Problem (or) Product Description:

Emotional and hormonal imbalances significantly impact mental health, productivity, and overall wellbeing. Existing health applications primarily focus on manual tracking and descriptive analytics, lacking intelligent systems that can identify hidden patterns or predict emotional changes.

LunaAura is a research-oriented AI system designed to analyze emotional and hormonal health indicators using machine learning models. The project focuses on identifying correlations between mood variations, stress levels, and hormonal cycles through structured data analysis. A prototype system is developed to validate the research outcomes and demonstrate real-world applicability.

Assumptions:

- Users provide honest and consistent emotional input
- Public datasets represent generalized emotional patterns
- Initial dataset size is sufficient for trend analysis

Constraints:

- Limited availability of real-world hormonal data
- Self-reported data may contain bias
- Privacy and ethical considerations restrict medical-grade validation
- Project implemented as a prototype due to time constraints

Stakeholders:

- Academic Supervisors
- End Users (Individuals monitoring emotional health)
- Research Community
- Healthcare & Mental Health Analysts
- Institution (SRM IST)

Division of work and contributors

Time period		Activities or components of the project	Name/Register Number of the Individual Contributor	Names/Register Number of the Joint Contributors
From Date	To Date			
01 December 2025	07 December 2025	Problem identification and requirement analysis	Balkar Singh Sekhon	Eshita Rai
08 December 2025	14 December 2025	Literature survey and research gap analysis	Eshita Rai	Balkar Singh Sekhon
15 December 2025	21 December 2025	Identification of relevant public datasets (Kaggle)	Eshita Rai	Eshita Rai
22 December 2025	28 December 2025	Data understanding and feature selection	Eshita Rai	Eshita Rai
29 December 2025	04 January 2026	Data preprocessing and cleaning	Eshita Rai	Eshita Rai
05 January 2026	12 January 2026	Selection of machine learning algorithms	Eshita Rai	Eshita Rai
13 January 2026	22 January 2026	Initial ML model implementation and training	Eshita Rai	Eshita Rai
23 January 2026	31 January 2026	Analysis of model results and pattern identification	Eshita Rai	Eshita Rai
01 February 2026	10 February 2026	Prototype system design (UI / data input layer)	Eshita Rai	Eshita Rai
11 February 2026	20 February 2026	Integration of ML model with prototype system	Eshita Rai	Eshita Rai
21 February 2026	27 February 2026	Result visualization and insight generation	Eshita Rai	Eshita Rai
28 February 2026	03 March 2026	Documentation (PPT, handbook, research article draft)	Eshita Rai	Eshita Rai
04 March 2026	06 March 2026	Review feedback incorporation and refinement	Eshita Rai	Eshita Rai

Summary record of major progress meetings with supervisors (Sprint 1)

Summary record of major progress meetings with supervisors			**Working title of dissertation/research project:** LunaAura: AI-Powered Hormonal and Emotional Health Tracker	
Meeting date & supervisors present	**Progress since last meeting**	**Agreed programme of work and target dates**	**Other issues, e.g. facilities, supervision, training needs, etc.**	**Date of next meeting**

Summary record of major progress meetings with supervisors (SPRINT 2)

Summary record of major progress meetings with supervisors			**Working title of dissertation/research project:**	
Meeting date & supervisors present	**Progress since last meeting**	**Agreed programme of work and target dates**	**Other issues, e.g. facilities, supervision, training needs, etc.**	**Date of next meeting**

Summary record of major progress meetings with supervisors (SPRINT 3)

Summary record of major progress meetings with supervisors		**Working title of dissertation/research project:**

Meeting date & supervisors present	Progress since last meeting	Agreed programme of work and target dates	Other issues, e.g. facilities, supervision, training needs, etc.	Date of next meeting

Worksheet / Data collection / Observation etc

- Dataset Source: Public emotional health dataset (Kaggle)
- Parameters Observed: Mood, stress level, sleep patterns
- Data Type: Structured numerical and categorical data
- Purpose: Training and validating machine learning models **Journal Publication Details**

Initial research article draft prepared and under review.
Targeted for future submission to an academic conference.
